

Course: Instructional Resource (IR) - (K-5)

Instructional Resource (IR) provides students with the opportunity to learn and practice important skills in computer science. During a remote learning period, students can take advantage of our online resources to continue their learning. The initial focus will be on keyboarding. The goal of keyboarding in grades K-5 is to help our students build effective and efficient keyboarding skills.

Collier County Public Schools uses Typing Agent as the keyboarding program for students in grades K-5 to practice typing skills. Students access Typing Agent through Canvas Resources. Students are automatically logged in and continue instruction.

Typing Agent

Typing Agent Login Information

- Log in to [Canvas](#)
- Click on the **Resources** (left menu)
- Click on **Typing Agent** (students will automatically be logged in to the program)

Best Practices

- **Posture:**
 - Place feet flat on the floor
 - Sit straight and tall with your feet flat on the floor
 - Elbows should be at your side
 -
- **Correct Fingers:**
 - Place fingers on the home row
 - Use correct finger paths (refer to the image below)
